

The Management of Nifco Products España S.L. considers that the preservation of the environment is a fundamental principle of the company.

For this reason, Nifco Products España, S.L. has decided to develop all its industrial activities in an environmentally friendly manner, providing the resources to implement, maintain and continuously improve the Environmental Management System, committing to compliance with legislative requirements as well as other applicable regulations, while maintaining updated work procedures to ensure the rational use of resources and the minimization of waste, contributing to the sustainable development required by society.

Consequently, Nifco Products Spain, S.L. establishes the following general objectives:

- Make sustainable use of resources and reduce as much as possible the production of waste and its danger and ensuring proper management, as well as avoiding emissions and pollutant discharges, by establishing environmental objectives and the application of continuous improvement programs.
- Apply the basic principle of pollution prevention from the planning and evaluation of decisions on new projects and / or their modifications.
- Collaborate when required by different administrations and public or private entities in the search for solutions to environmental problems raised in the exercise of our activity.
- Facilitate internal and external environmental communication with transparency criteria and report on the objectives achieved and the work in progress related to the control of environmental aspects.
- Promote the awareness and training of all personnel, as well as the collaborating companies that work on our behalf (suppliers and subcontractors), in the understanding and acceptance of this Policy as well as the rest of the Environmental Management System.

For all the above, Nifco Products España S.L. is committed not to develop those industrial projects that are not respectful with the environment and in accordance with its environmental policy.

This Policy is available to interested parties, being reviewed and updated on a regular basis for its continuous adaptation.

Terrassa, April de 2018
